

AMIT YADAV

FULL STACK DEVELOPER & WEB DEVELOPER

Mumbai, India | +91 9987010855 | amityadav32351@gmail.com | linkedin.com/in/amit-yadav46 | Portfolio

PROFESSIONAL SUMMARY

Versatile and results-driven Full Stack Developer with strong expertise in frontend technologies and end-to-end web architectures. Proven background in designing modern, responsive interfaces and robust backend APIs utilizing the MERN stack (MongoDB, Express, React, Node.js). Experienced in mentoring emerging developers, managing database systems, and integrating data analytics pipelines (Python, SQL) to produce data-driven, high-performing applications.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design
Backend & DB:	Node.js, Express.js, MongoDB, PHP, RESTful APIs, MySQL, PostgreSQL, Postman
Programming:	Python (Pandas, NumPy, Matplotlib, Seaborn), Java, SQL
Tools & Design:	Git, Docker, Figma, Canva, Tableau, Power BI

PROFESSIONAL EXPERIENCE

Full Stack Developer Trainer

Infodesk Computer Education

August 2024 – Present

Mumbai, India

- Deliver comprehensive technical instruction on full-stack web architectures covering HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, and SQL.
- Mentor and guide over 50+ students in architecting and deploying production-ready applications using the MERN stack, significantly improving student placement outcomes.
- Instruct students on implementing modern design principles, responsive web layouts, secure RESTful APIs, and relational/non-relational database normalization.

Data Analyst

MCM Private Limited

October 2023 – February 2024

Mumbai, India

- Engineered complex data extraction queries and pipelines using SQL, cleaning and processing high-volume datasets utilizing Python (Pandas, NumPy) to enable data-driven strategy.
- Designed and maintained interactive corporate dashboards via Tableau and Power BI, converting raw logs into high-impact executive visual insights.
- Conducted comprehensive statistical analysis and predictive modeling using Matplotlib and Seaborn to pinpoint system anomalies, customer trends, and seasonal business metrics.

KEY PROJECTS

E-Voting System Using Blockchain

React.js, Ganache, Truffle, Solidity, Web3.js

- Engineered a highly secure, decentralized e-voting platform using Ethereum-based local testing environments (Ganache/Truffle) to ensure total transparency and unalterable records.
- Developed an intuitive, responsive frontend with React.js that links to blockchain smart contracts, providing voter authorization and real-time ledger updates.

Secure Password Manager Web Application

MERN Stack, JWT, Tailwind CSS, Cryptography

- Designed and deployed a secure, production-grade credential manager using React, Node.js, Express, and MongoDB.
- Integrated secure JSON Web Token (JWT) user authentication protocols alongside symmetric encryption techniques to guarantee local-first password safety.
- Built and optimized responsive RESTful APIs to facilitate efficient, authenticated CRUD operations with zero database exposure.

EDUCATION

Master of Science in Computer Science (M.Sc CS)

Patkar Varde College (Autonomous)

Pursuing

Mumbai, India

Bachelor of Science in Computer Science (B.Sc CS)

Nagindas Khandwala College (Autonomous)

Graduated: 2023 | CGPA: 9.32 / 10.0

Mumbai, India

CERTIFICATIONS

- **Web Development:** Johns Hopkins University / Coursera
- **Java Programming & OOPs in Java:** Great Learning
- **Data Structures & MongoDB with Python:** Technical Curriculums
- **AWS for Beginners & MySQL:** Great Learning Foundations
- **Python Programming:** Foundational Development

LANGUAGES

- English (Professional)
- Hindi (Native)
- Marathi (Conversational)
